PERSONAL PROJECTS

Tic Tac Toe Game (02/2022 - 02/2022)
- This is a project where you can play the game with system. This project is created using the HTML, CSS, Javascript.

Random Quotes (04/2022 - 04/2022)
- This is a simple Random Quotes generator project where you can read the good quotes which I'm fetching through an API. I have created this project using HTML, CSS, Javascript.

Task Locator (09/2021 - 03/2022)
- Our system is responsible for notifying or reminding us the things of our needs based on areas in which we are present. The functionality of our system is that the GPS Tracker will continuously keep track of the user's current location and it will provide reminders to user for that location. In this way it will help to reduce different kinds of efforts to maintain the notes.

Lab Management (08/2022 - 09/2022)
- Developed internal proprietary software for management of internal lab requests, licensing and approval of access for all employees.
- Developed the application using HTML, CSS, Avaya neo css, JavaScript, AngularJS.
